

Microsoft Partner
Silver Independent Software Vendor (ISV)

Imagicle ApplicationSuite

One Suite with all the apps you must have for Skype for Business.

Making your Communications
faster, smarter, easier.

The Imagicle ApplicationSuite provides you the most complete set of UC apps all in one suite, simplifying deployment, administration and use.

Affordable, usable, user-friendly, it has everything you need to empower your customer service, integrate your apps via CTI, control and analyze your calls, virtualize your fax service, grant access and profile your corporate directories and much more.

It's built for your team. All users can have an exceptional, unified, easy experience, from their deskphones, browsers and mobile devices. It values your choices, granting native integration with Microsoft platforms.

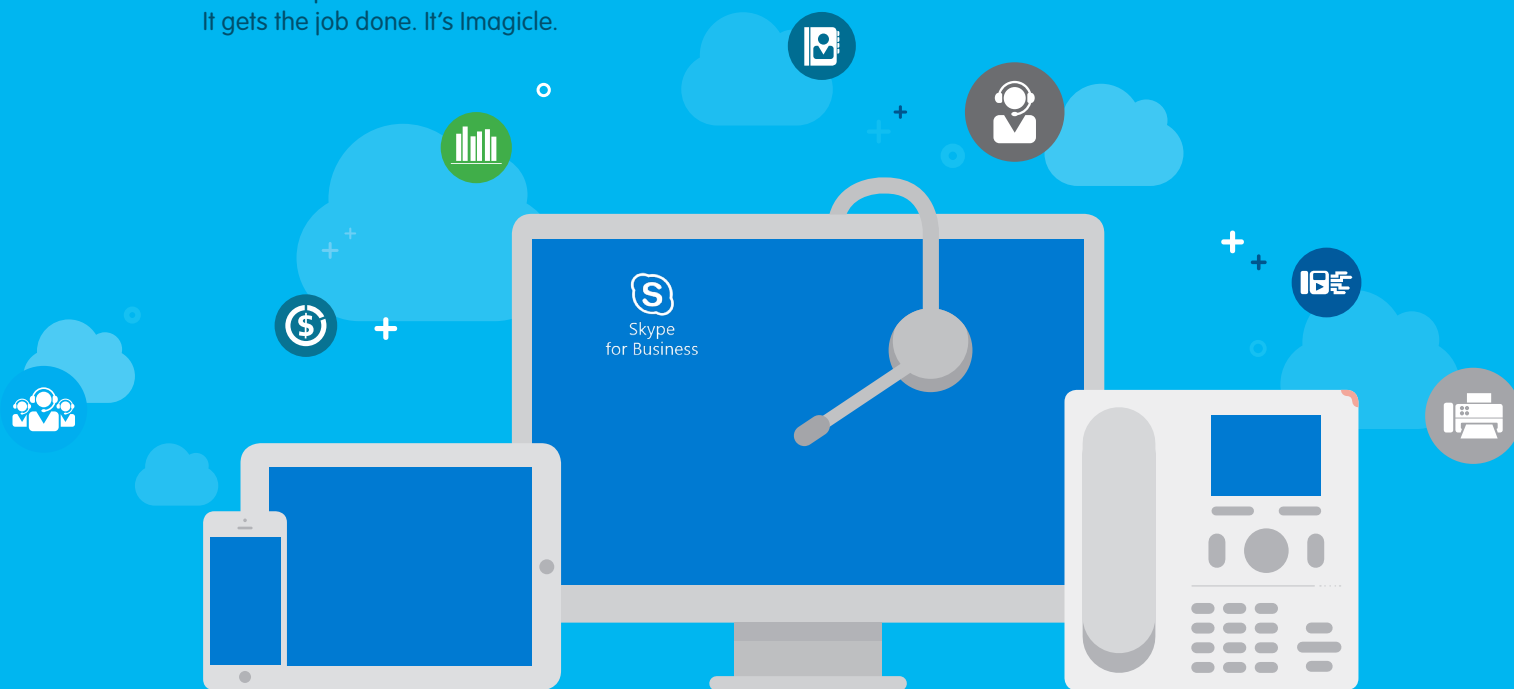

It runs on-premises or on the Cloud.
It gets the job done. It's Imagicle.

No secrets: best technologies and
passion for happy customers.

Everything starts from a real passion to make customers happy: first and foremost.

We design and develop software using the most advanced methodologies, base our ApplicationSuite on standard protocols and the latest web technologies, be Microsoft Silver Independent Software Vendor, was just a consequence.

This is also the prerequisite for the continuing innovation we present three times every year, with our Winter, Spring and Summer releases.
